He helps suffering people find and release negative energy within the subconscious mind using Spirit Release, Past Life Regression, Gestalt, Parts Therapies and Energy Therapies and then reprograms the subconscious for permanent positive change. This very powerful technique, uniting negative energy release at the cellular level, spirit attachment, past life influences and therapeutic hypnotherapy is unique to Dr. Skillas. He also does Remote Clearing work. No one can precisely predict how long therapy takes. The first session consists of understanding problem background, client understanding of therapy philosophy, treatment plan development and initial therapy. Sessions are usually 2 hours long. The average number of sessions ranges from 3-6.

The minimum charge for private sessions up to 2 hours long is \$400.00. In rare instances of sessions lasting more than 2 hours, the charge rate is \$200.00/hour. Cash or checks are accepted. Because so many troubled people desire his work, scheduled appointments can require 4 - 6 weeks advance. **Therefore, if an appointment cannot be kept, forty-eight hours notice must be given so that someone else may utilize the appointment, otherwise a charge of \$200.00 will be made. Please fill out the Confidential Case History, Informed Consent and STEMS Forms and bring them with you to your appointment.**
