THE BEST AND MOST ADVANCED HYPNOTHERAPY COURSES IN THE WORLD

If you want to learn hypnotherapy and practice it so that you can help people who have serious problems, then you will want to take this Re-SET Hypnotherapy System of courses. There are many hypnotherapy courses that you can take that may be less expensive and take less time, but **this is the premier hypnotherapy course in the world.** No one else teaches what we teach. The Re-SET Hypnotherapy System is copyrighted and taught by instructors who have been trained to teach this advanced work. No other instructors in the world can do what we do. You owe it to yourself to take at least the 1st day course so you can see what this is all about. And if you don't feel that this is the best course in the world, it has only cost you \$250, but you will have learned, in that one day, about this advanced technology that we teach and you will be a hypnotist at the end of that one-day. Think about it --- you'll probably only take one hypnotherapy course in your life---why not take the best? You will have all the tools you need to tackle the toughest problems that suffering people bring to you and you will be successful in your practice. In addition, when you Re-SET clients to their optimal self, you will also Re-SET yourself to your optimal self – isn't that wonderful! And, while you're helping people, you can make a good living at the same time.

We look forward to teaching you this beautiful course.

Short overview of the technology contained in the Re-SET System Advanced Clinical Hypnotherapy Course. This technology is far beyond the technology contained in standard hypnotherapy certification courses.

The advanced technology stems from the oldest model of disease on the planet called the Eastern model, which is between 9000 and 11,000 years old. This model says that all disease (problems), mental, emotional, physical and spiritual are caused by improper functioning of the cells of the body. When you boil it down, the cells malfunction during the regeneration process because of blockage of the flow of life force energy (Chi) to the cell communities of the body. What cuts the flow of Chi are negative forcing functions consisting of: bad things that have happened to us in this life, past lives, unresolved internal conflicts, biological carryovers from our ancestors, and the attachment of foreign energies. Included in bad things that happen to us in this life are bad things that happen to us in parallel dimensions of reality, so-called parallel universes. The technology discussed here gets rid of the negative forcing function energies in the subconscious mind, opens the blocked Chi, allows for the reprogramming of the subconscious hard drive, and repairs cell damage caused by the negative energy in the subconscious which we have gotten rid of. The technology consists of the following:

Spirit Releasement Therapy – earthbound spirits, demons, SMF’s, alien energies, thought-forms and other spiritual energies

Soul Retrieval Therapy for soul-mind fragmentation (SMF) attachments

Past Life Regression Therapy for initial and subsequent sensitizing events

Cell Damage Repair caused by negative energy on layers of consciousness

Parts Therapy for the resolution of unresolved internal conflicts

Remote Clearing of people and places

Gestalt Work and Forgiveness Therapy

Emotional Freedom Technique (EFT) for releasing the emotional components of distress

Neurolinguistic Programming (NLP) for anchoring ego states

Energetic Clearing (Hole In the Side technique)

Clearing Parallel Universes of present lifetime

Protection against foreign energy attachments using prayers and Huna rituals
